

SUMMARY

A creative problem-solver with excellent communication and leadership skills. Learns new technology quickly and continually strives to increase her programming knowledge while honing her current expertise. She brings a wealth of experience in both client-facing and internal team collaboration. Proficient with a wide array of programming languages and design tools. Well-versed in code review and refactoring techniques as well as writing organized, semantic code. Unafraid of challenges and embraces change. Excellent potential to become an outstanding team member.
